

UMW Student Panel Announcement

Department of Mathematics

Panel on Summer Opportunities for Mathematics Students

Presented by

**Paige Beidelman
Hannah Frederick**

Amy Creel
University of Mary Washington

**Tuesday, February 11, 2020, 4:00 p.m.
140 Trinkle Hall**

There are many interesting and useful opportunities for students during the summer. Opportunities to be exposed to research, for internships in industry, and to study abroad and learn about mathematics. This panel will highlight three students and their summer activities. They will describe their summer work and how they got involved. After the presentations, there will be a Q&A session for students to discover more about these research opportunities.

Paige Beidelman: PREU at Clemson University & Budapest Semester in Mathematics Education

Hannah Frederick: Summer Science Institute research program at UMW

Amy Creel: Summer internship at CACI doing data analysis for the US navy
