Rory Black: I am originally from Baltimore, Maryland. I graduated from UMW in May 2022 with a B.S. in Math and minors in Applied Statistics and Data Science. I am now at UVA getting an M.S. in Data Science.

Makenzie Clower: I am a Software Test Engineer at NSWC in Dahlgren, and have been there for 3 years. I graduated with a B.S. in Mathematics and Biology in 2019. I just completed my Masters in Engineering Management in May of 2022 from Old Dominion University.

Hannah Frederick: I'm a data scientist currently working at General Atomics Commonwealth Computer Research, Inc. (GA-CCRI). I graduated from the UMW with a B.S. in May 2020, where I majored in mathematics and double minored in data science and computer science. I currently work at GA-CCRI, applying both geospatial analysis and software development for over a year.

Kyle Genovese: I graduated from UMW in 2014 with an honor's degree in Mathematics and a minor in Computer Science. Upon graduation, I joined the Ballistic Missile Defense Systems Test team at the Naval Surface Warfare Center in Dahlgren, VA. After two years, I decided to pursue a master's degree in Operations Research at Cornell University. In 2017, I moved to Boston and joined the Supply Chain Analytics team in Wayfair. While at Wayfair, I moved to Berlin, Germany and transitioned to a formal Data Science career path. Today, I continue to navigate the tech industry in Silicon Valley, having recently moved to San Francisco to work at LegalZoom as a Staff Data Scientist.
