PRE-HEALTH PROGRAM

## UMW PRE-HEALTH ADVISING

Preparing Students for the Next Step

## Academics

Major in something you enjoy while obtaining pre-requisite classes. High quality rigorous coursework builds a solid foundation focusing on depth of knowledge, critical thinking, team work, and effective communication. Over 47 majors and 37 minors allow for demonstrating intellectual curiosity

# Requirements for Entering a Post-Graduate Health Career

## Pre-Health Advising...

- Guides students through
- selecting careers and completion of requirements
- Assists students with identifying clinical and community service experiences
- Prepares students to apply for graduate programs through
  - Construction of an ePortfolio
  - Mock interviews
  - Guidance on writing resumes and personal statements
  - And more!

## Community Service and Leadership Experiences

An active service-oriented community provides ample opportunities to demonstrate your compassion while over 150 athletic teams and student run clubs can help students acquire leadership skills

## Clinical Experiences

Agreements with Mary Washington Healthcare and other local providers allow students to obtain high-impact experiences. These may be done as internships to help satisfy General Education and/or major requirements
